

## **Consultation on new play equipment on Kirmington Playing Field**

We are hoping to apply for grant funding but first, we need your input as to what we have been advised (by the equipment company) would work well.

We would like to propose to the community the following play equipment be added to the existing ones:-

Timber Swing with Group Seat

&

Crinkle Crag Climber (rubber matting to be installed in grass also)

I have included information on the pics below. But for further info here's the links to the supplier's website:-

<https://www.pentagonplay.co.uk/.../crinkle-crag-climbing...>

<https://www.pentagonplay.co.uk/.../timber-swing-24m-with...>

I know from the poll last year that the majority wanted a zip line, but following advice from the supplier (who does supply them) that this wouldn't be a good choice for the location, plus it would need a fair bit of maintenance.
